COMMENTS

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: the independent claim defines a quilting machine including a frame with at least two elongated roller member for supporting a quilting material thereon. The roller members are spaced apart and rotated freely for moving the material toward a sewing arm of a movable sewing machine. A sliding track is provided for supporting the sewing machine and allowing movement of the sewing machine in a directional plane perpendicular and parallel to the roller members. A quick release brake means are provided for applying and releasing braking of the rollers for controlling the direction of and rotation of the rollers. The dependent claims define further structure of the quilting machine of the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Pertinent Citations

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Friedlund illustrates a frame with rollers for tensioning a curtain and it includes cranks for controlling the rotation of the rollers. Shifano et al. Illustrate a movable sewing machine moving over a material feed system including a feed crank for controlling rotation of the material. Reed et al. illustrates a quilting machine including movable sewing machines and rollers for supporting rolled up material where the rollers
